Atiq Rahman

Software QA Management

I love building high-performing QA teams to tackle technology challenges in successful and positive environment.

EXPERIENCE

QA Manager

One Medical Oct 2018 - Mar 2019

- • Over 10 years' experience in building results-driven teams and managing QA/software development projects with technical experience leading full SDLC/STLC throughout all phases of manual and automated testing. • Examined, validated, and tested software, ensuring scalability and reliability of developed products and services.

QA Manager

One Medical Sep 2016 - Oct 2018

- • Effectively defined testing processes and performance monitoring strategy for the QA team and led the development of Automation Framework. • Led onshore/offshore cross-functional engineering teams, applying QA best practices and Agile scrum procedures with proper coaching, mentoring with professional development.

Senior QA Lead Engineer

One Medical Aug 2007 - Sep 2016

- • Experienced in implementation of QA methodologies, effectively creating, executing and managing QA reports and metrics for weekly and quarterly presentation to executive teams. • Highly adept in risk assessment of SaaS and delivery of high enterprise software products.
